

Hankook Dubai 24H Grandstand Retail Plaza

Event Date: 10th to 14th January 2017

Proposal for Grandstand Village Attractions and Activations

What is the Hankook 24H?

Hankook Dubai 24H, has been the first Endurance race on the international motorsport calendar for the past nine years - this year the event celebrates its 10th Anniversary. The race is open to both professional and semi-professional drivers and teams. There are local competitors from the UAE and surrounding nations in the GCC region, but the vast majority are international teams particularly from European nations.

This year nearly 100 teams are entered which means a grid start of 100 or more cars including: Mercedes, BMW, Bentley, Porsche, Ferrari, Lamborghini, McLaren, Nissan, Aston Martin to name some.

There will be Live TV Coverage throughout the 24 hours, in addition to coverage of all practice and qualifying sessions which will be broadcast live on Motors TV, Dubai TV as well as YouTube and streamed on the 24HDubai.com website. This has a reach of well over 2 million viewers during the course of the weekend and Live radio and internet coverage will be done by RadioLemans.com which typically has over half a million listeners.

Dubai Autodrome distribute over 100,000 free invites to our database via email, and during the course of the race weekend approximately 20,000 fans are expected. Entry to the venue is free with access to the grandstands and paddock area.

There is a dedicated website for this event here: <http://www.24hseries.com/24h-dubai> - this provides all the information on the event and any developing news related to the event.

The Circuit & MotorCity

The 5.39km Dubai Autodrome circuit is one of the most modern in the world; it is also one of the most challenging, as it has a combination of high-speed straights and technical corners. The venue is part of the Union Properties MotorCity development in the greater Dubailand area.

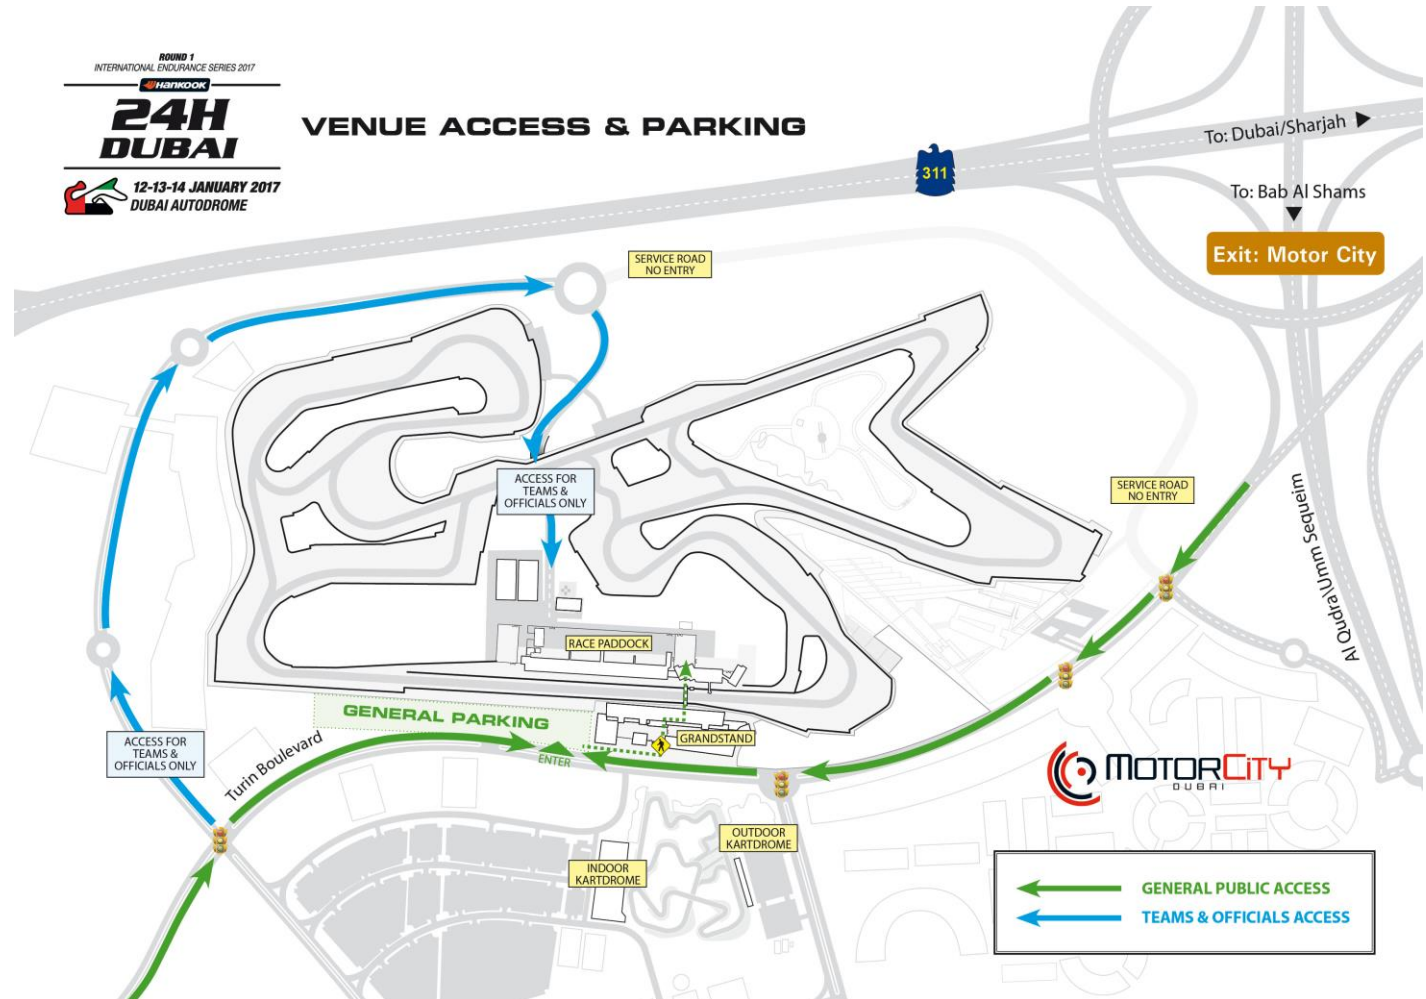

MotorCity today is a thriving community of 1000's of residential apartments and villas encompassing the Dubai Autodrome. The main boulevard of MotorCity is a bustling retail strip with a large variety of outlets from F&B, lifestyle, supermarkets and specialist stores.

Teams vs Public Access

The race teams and general public use two different access routes to the venue. The teams need access and parking close to the paddock via the blue route shown where all the teams containers, cars and equipment are unloaded.

General public access will be the green route shown through the Grandstand Main entrance and public parking will be adjacent to the Grandstand.

Main Entrance & Grandstand Village

Whilst the paddock is also a public area for spectators the main access route for general public is only through the main grandstand entrance which located on the main boulevard of MotorCity.

Public parking and valet parking is close to the main grandstand entrance. The grandstand village is just within the main entrance of the venue making the grandstand the main focal point for over 10,000 visitors over the course of the event.

This year we intend to expand on previous years humble offering of F&B and bring activations, classic car displays and entertainment for all the family.

2016 F&B setup in the Courtyard
