

# DUBAI KARTDROME ENDURANCE CHAMPIONSHIP 2017

## BULLETIN

Date : 18<sup>th</sup> October 2017

Event : DUBAI KARTDROME ENDURANCE CHAMPIONSHIP - 2017

Bulletin : CHAMPIONSHIP BULLETIN # 1

Subject : 2d. - CORPORATE Ranking Category / 2b. - MINIMUM AGE - REVISED TO 13 YEARS / 6b. - KART BALLOT  
(Dubai Kartdrome Endurance Championship General Regulation 2017)

Dear Team Manager /Captain/Drivers,

**2d. - CORPORATE Ranking Category dated 07<sup>th</sup> February 2017**

**The Corporate ranking team eligibility has been revised.** The team must consist of minimum 3 drivers to 8 drivers, with the exception of the annual 24hrs, which will require a minimum of 4 drives to 8 drivers.

**2b. - MINIMUM AGE - REVISED TO 13 YEARS dated 18<sup>th</sup> April 2017**

The minimum age has been revised to 13 years on the day of the race and should be the holder of a valid race license with race history. The driver required to have an authorization in writing from a parent or guardian in order to participate.

The other criteria to be met with the revised minimum age of 13 to 14 years are the minimum height of 138cm and minimum weight of 55kg with full race gear but must comply with minimum "driver weight" of 80kg by carrying ballast weight.

**6b. - KART BALLOT dated 18<sup>th</sup> April 2017**

Each time a team enter the pit lane, they are required to change karts. All karts must have their weight checked each time they pass through, regardless of a driver change is happening or not. Once the incoming driver has had his/her weight checked, the new drivers (or incoming if they are double stinting) must proceed to the **kart change area** at the end of the pit lane at walking speed, with a walker in front.

- Once the drivers reach the kart change area, they are to stop their karts and get out and wait for their front & rear Number Plates, which will be removed by a Kartdrome mechanic, and given to them
- Once they have the two number plates, the driver is to walk behind the police barrier towards the kart change area
- The driver is solely responsible for collecting their own weights before getting into the next kart and installing them
- There will be two lanes of karts. LANE 1 and LANE 2. Each lane will have several karts.
- The driver must touch the button on ipad in supervision of one of Dubai Kartdrome's technical team. The ipad has software which will designate a lane number at random. The driver MUST select the first kart in line that given lane.

**NOTE: Drivers are only allowed to touch the button once on the ipad. Should a driver try to press the button twice or take a different kart than otherwise directed, they will be subject to unsportsmanship behavior.**

Yours faithfully,

  
RYAN TRUTCH  
Race Director
