

Dubai Autodrome Karting Academy
(DAKA)

Parent Information Pack - March 2019

Dear Parents,

On behalf of Dubai Autodrome we are delighted to announce the dates for the new school term. We have created a new day for DAKA beginners (Level One) on Sundays, and we continue with our existing DAKA students who are progressing Level Two, moving into conclusion of Level Three on Tuesdays.

By registering your child, they become part of Dubai Autodrome Karting Academy (DAKA) the one and only official karting academy in the UAE. Here is a bit more information on what to expect:

1) Dates and Timings

Our next enrollment begins on Sunday 24th March for 10 weeks in the Indoor track. Our existing students re-enroll for Tuesday 26th March for 10 weeks on the Outdoor track. Please Note: No classes during spring break – you will not miss out if you take your holidays ☺

DAKA timings are between 4.30pm to 6.30pm and is suitable to students aged 7 to 16 years

Every night, DAKA includes multiple sessions on the track, up to 3 x 15-minute karting sessions and a 30-minute practical in the Dubai Autodrome garage. This means that your child, from the outset, will be absorbed in the most adrenaline filled and unique after school activity in the UAE.

NB: It is expected that with Summer coming, it will be hot, we encourage lots of breaks, plenty of water and cool clothing for the DAKA students. Shorts and T-shirts are ok, but closed toe trainers and socks are essential.

2) Course Outline

DAKA will provide special unique learning opportunities throughout the course to help them on their journey to becoming a race driver. This includes:

- Rules and guidelines on how to drive safely and stay safe in a kart.
- Structured racing tuition with experts to guarantee reduced lap times.
- Varied and combined lap set ups to master different types of circuits; these are changed and become progressively harder as the course goes on.
- Over the next six months students will work their way through three levels of grading to master race craft and develop into a future racer.

In addition, DAKA will provide physical hands-on mechanical tutorials and challenges to help educate drivers about the kart and give them lasting experiences, including:

- **Kart wheel removal, kart wheel refitting, pressure checks and tyre direction check.**
- **Brake Pad change.**
- **Stub axel change and refit**
- **Sparkplug Change.**
- **Oil Change.**
- **Air filter removal, cleaning and reinstall.**

As the DAKA drivers graduate through the levels they will be able to manage other mechanical techniques including:

- **Spark plug gapping**
- **Carburetor removal, clean and refit**
- **Front wheel alignment**

- Exhaust and inlet valve clearance setting
- Rear sprocket removal checking tension and alignment
- Removing and Installing the drive belt
- Removing Exhaust

The Dubai Autodrome Karting Academy delivers the highest standard of kart training to youth across the nation, while providing a pathway to professional motorsport careers. DAKA will be a natural feeder series for ESKC, SWS and the world-renowned Dubai Kartdrome Endurance Series. The DAKA program has been designed and will be overseen by very experienced and multiple championship winning drivers and coaches.

3) Circuits and Levels

DAKA will work through set levels of tuition as follows:

Levels	Track Exposure	Curriculum Overview
One	Indoor Clockwise & Anti-Clockwise	Pure introduction to karting teaching basic karting skills and experience DAKA will run both clockwise and anti-clockwise track directions so drivers can adapt and learn the following: • Holding steering wheel correct. • Racing lines on different circuit configurations, understanding apexes, braking points. • Direction and detail of each course.
Two	Indoor Clockwise & Anti-Clockwise plus Outdoor Club track	This level is a bit more comprehensive, introducing race craft where drivers will start to develop skills and understanding of the following: • Overtaking. • Defending their position, whilst optimizing consistency and smoothness on track. The karting coaches will develop race discipline by encouraging drivers only to overtake only on certain corners, so drivers gain confidence and master overtaking techniques. During Level Two, the outdoor track is introduced, using half of the International Dubai Kartdrome circuit to perfect the corners more frequently, before advancing onto another part of the track. This will provide more beneficial lessons to the drivers.
Three	Outdoor Club, National and International	Level three will lead into more advance race preparation, introducing more tracks and layouts. It will contain the following: • Close racing and perfecting the track. • Introduce the national track especially for overtaking and defending opportunities. • Learning the full International track layout. Level three is high-adrenaline, much longer laps containing more corners. Level three graduates will be part of a special race day event at Dubai Autodrome on the final course day.
